

## Reflex electroform

# 100x100 SW2,38

\* according to manufacturer's choice, min. 10mm

### REFLEKTOR DATEN

Application	Reflective tape
Item	100x100 SW2,38
Item no.	19242110

### TECHNICAL SPECIFICATIONS

Shape	angular
Size (LxWxH)	105,5x 100x 10 mm
Reflective size (LxW)	100,31x96,96 mm
Tolerance	f [ISO 2768]
Mounting	to be screwed
Chemical resistance	Standard
Protection	
Operating temp.	
Surface	Standard
Optical structure	hexagonal
Optic size	Standard triple SW2,38
Polarizing rotation	no
Application	Standard reflex electroform

### MATERIAL DATA

Material	Nickel
----------	--------

### DESCRIPTION

Standard reflex electroforms that are available promptly and can be used universally. The flat electroforms are designed with hexagonal prisms and are available in various dimensions. The electroforms are suitable for producing reflectors in accordance with ECE and SAE.
